“ To Mrs. Steffeks children,
Our parents were friends and American Legion buddies. As a Legion kid I grew up at the many fund raisers, events, parades, and parties that our parents took part in. I remember your parents as kind and generous and who loved to laugh. It's wonderful to look back and see that their sacrifice during the war brought them together in a place of great camaraderie. They were good times that they well deserved.

I am very sorry to hear about your Mom. My wish for you is that that you reach the point that your thoughts of her always bring a smile to your face.

Sincerely,

Pat Buhrmaster
